AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD,

Medical.

FOR PURIFYING THE BLOOD,
And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such
as Tumors, Ulcer, Norces, Eruptions,
Pimples, Pustules, Blotches, Boils,
Blains, and all Skin Discases.
Blains, and all Skin Discases.
J. C. Ayer & Co. All Skin Discases.
Is all any duty to acknowledge what the cure respansible has done for me.
Ilaying inherited our exemptable has done for me.
Ilaying inherited Scrofulous infection, I have
the state of the state of the state of the state of the state
semetimes it burst out in Ulcers on my hands and arms;
sometimes it turned invard and distressed me at the
stomach. Two years ago it broke out on my head
and covered my scalp and cars with one sore, which
was painful and loathsome beyond description. I
tried many medicines and several physicians, but
without much relief from anything. In fact, the
disorder grew worse. At length I was rejoiced to
read in the Gospel Messenger that you had prepared
an alterative (Sarsaparilla), for I knew from your
reputation that anything you made must be good.
I sent to Cincinnati and got it, and used it till it
cured me. I took it, as you advise, in small doses of
a teaspoonful over a month, and used almost three
bottles. New and healthy skin soon began to form
under the scale, which after a while fell off. My
skin is now clear, and I know by my feelings that
the disease has gone from my system. You can well
believe that I feel what I am saying when I tell you,
that I hold you to be one of the apostes of the age,
and remain ever gratefully.

ALFRED B. TALLEY. believe that A lold you to be one of the apostics of the state of the

Leucorrhon or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases. Dr. J. B. S. Channing, of New York City, writes Lexcorrhen or Whiten, Ornrinn Tumor, Uterine Electration, Female Diseases, Uterine Electration, Female Diseases, "I most cheerfully come of New York City, writes: "I most cheerfully come of the request of vour agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrotulous distinction. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by uteration of the uterus. The uteration itself was soon cured. Nothing within my knowledge equals it for these female derangements." Edward S. Marrow, of Newbury, Ala., writes: "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Moreurial Disease.

last resort before cutting, and it proved effectual. After taking your remedy cight weeks no symptom of the disease remains."

*Syphilis and Mercurial Disease.

New Orleans, 25th August, 1859.

Br. J. C. Ayen: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wondrial in the cure of *Tenered and Mercurial Disease. One of my patients had syphilite ulcers in his throat, which were consuming halliful culeers in his throat, which were consuming halliful culeers in his throat, which were consuming halliful culeers in his throat, which were very another was attacked by secondary sympoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEFERDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. Ayen: Sir, I have been afflicted with a apinful chronic Rheumatism for a long time, which some sarsaparilla. One bottle cured me in two weeks, and are better than before I was straked. I think it a wonderful medicine.

J. FREAM.

Jules Y. Getchell, of St. Louis, writes: ''I have been afflicted for years withan aghetion of the

think it a wonderful medicine. J. FREAM.

Julie Y. Getchell, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I triad everything and the property of the latest with the state of the latest with the state of the latest with the state of the latest with lates

the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsin, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgin. Many remarkable cures of these affections have been made by the affective years of this medicine. It stimulates thay tild functions had vigorous action, medicine can do.

Ayer's Cherry Pectoral, FOR THE RAPID CURE OF

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Honnseness,
Croup, Bronchitis, Incipient Consumption, and for the Relief
of Consumptive Patients
in advanced Stages
of the Disease.

This is a remedy so universally known to surpass
my other for the cure of throat and lung complaints,
that it is useless here to publish the evidence of its
virtues. Its unrivalled excellence for coughs and
colds, and its truly wonderful cures of pulmonary
dienase, have made it known throughout the civilized nations of the earth. Few are the communities,
or even families, among them who have not some
personal experience of its effects—some living
trophy in their midst of its victory over the subtle
and dangerous disorders of the throat and lungs.
As all know the dreadful fatality of these disorders,
and as they know, too, the effects of this remedy,
we need not do more than to assure them that it has
now all the virtues that it did have when making
the cures which have won as strongly upon the
confidence of mankind.

Self-Respect.

When the citizens of Victoria were called upon to select candidates to be members of the Legislative Council of British Columbia, after the Union, there were few amongst them who did not expect that they were then for the first and last time called upon to go through the farce of selecting candidates to be approved by the Governor, for seats in a legislative body which is, so far as its capacity for making laws extends, an oligarchy, and of the worst kind, being imperfeet from its very foundation, for the members constituting the oligarchy, are subservient to the will of one man. Two years have passed away, and there is no improvement in our political status. It might perhaps be profitable, in view of the coming elections, to consider the causes of this want of improvement; Who is to blame? Is it the people who are wanting in energy to insist upon and enforce their rights? Or is it the Governor of the Colony who refuses to give due weight and regard to the wishes of the people? It is impossible to say that some of the responsibility of the situation does not rest upon the people themselves; there is, and there always has been in this city a certain degree of apathy amongst those who might exert considerable influence by unity of action. There is not sufficient interest taken in the Government of the country by owners of property, and persons in business in this city. The English part of the population are quite as much like temporary scjourners in the country as are the foreigners. This cannot be right, it is not good citizenship, no country can aspire to greatness whose inhabitants take no interest in its good government. When the whole power, both of making laws and administering them, is virtually left in the hands of a few who are in their turn dependent

upon the Chief Executive, there must be a deflection from the limited monarchical system, which, to a greater or less extent, prevails in most civilized countries in the present age, to a mixture between despotism and oligarchy. The citizens of Victoria are ready enough to complain that the country is ill governed, but they have not the energy to exert themselves to bring the present unsatisfactory system to an end. The issue is in the hands of the people, but if they are divided amongst themselves, they strengthen the hands of the Government, by a manifestation of their own weakness. It would really appear from their actions that the neople of this city are not fit to be trusted with anything approaching to self-government. There are many men carrying on business in Victoria who have a fair amount of talent and business habits, and who would indignantly repudiate the imputation of being little better than children, and unfit to be trusted with the control of affairs of any more importance than the buying and selling of merchandise; and yet these very men will not hesitate to proclaim to the world, that in their estimation the Colony is not fit to be trusted with Responsible Government; some will go so far as to aver that the Colony is too young for Representative Institutions. Now als though the Colony itself is compara. tively young, its collective youth differs from individual and personal youth in this respect, that it has in its component parts, not only the elements, but the fully developed bodily strength and mental energy necessary for self-government. We have amongst us many private individuals fully qualified to take a part in the administration of public affairs, and whose local knowledge and experience in Colonial matters, would be of infinitely greater service than all the red tapeism

main object is to keep their own places with undiminished salaries. The Liberal Candidates.

of the most talented officials, whose

Dr. Powell has announced himself as a candidate for the representation of Victoria and E-quimalt in the Legislative Council. Those who desire to see the people properly represented in the Council will support those two candidates who have declared themselves in favor of Representative Institutions and Retrenchment. The Colony has had enough of sham institutions. A farce it cleverly played is amusing enough when one is disposed for a half hour's relaxation, but regular play-goers would not be satisfied with the best or broadest farces, if nothing

amuse an audience with nothing but the lowest comedy, would soon be starved out; unfortunately we cannot starve our manager out, the people cannot stop the supplies, they have quietly submitted to be denuded of all real voice in the management of public affairs, and what is the result? The Governor of this Colony seems to be determined to show that he has the power as well as the will to smother the people's supposed share in the Government with the most complete ridicule; and has not hesitated a second time to attempt to degrade the colonists by directing them to select from amongst their fellow citizens, candidates for his approval, as if they were schoolboys instead of reasoning men. Mr. Seymour may think it a good joke to put the people of the Colony in a position which is beneath absurdity. It is the people's own fault if they allow him to enjoy his jokes at their expense, we have had enough of rerogression, let us put our shoulders to the wheel and push the cumbrous old machine to the top of the hill, and when once we have it there, let us take it to pieces and remodel it, before we start upon another journey.

J Smith Smit TO MESSES TOLMIE, FOSTER, FELL, LOWE AND OTHERS PERSENT TOLME, FOSTER, FILL, LOWE AND OTHERS:

NULLEMEN;—In reply to your requisition, that I should

w myself to be put in nomination for Victoria and
inmat, I feel that I should full in my-duty if I refused
one forward after such a numerously and respectably
ed document. I shall have an opportunity of exsling my views more bully to-morrow.

I have the honor to be, gentlemen,
Your obedient servant,
21

M. W. TYRWHITT DRAKE.

WANTED.

A SMART BOY TO RUN OF ERRANDS, Apply at THIS OFFICE.

eny theatre who made the attempt to To the Free and Independent Electors of Victoria City and Esquimalt Town.

GENTLEMEN:—Having been solicited by a large and influential assemblage of citizens last night, to allow myself to become a candidate for membership to the wext Legislative Councit; as a strong supporter of those liberal principles of which the Coleny at present so much study in refusing to come forward. I will take an arrivative to the comportunity of making known my views and construction of the modern control of the cont

ponsible Executive.

I have the honor to be, Gentlemen,
Your hamble and obedient servent.
J. W. POWELL

To the Electors of Victoria City and Esquimalt Town.

Genterms:—You are asked by the Governor "to solect" Iwo of your fellow-citizens to fill the seats allot to the Bietriat in the Legislative Council. If you were asked under the sanction of a statute to elect two yood men and true "to represent your interests in the Council, where they could take their seats without the identification of the Governor in accordance with the traditions and immemorial usages of the British people, every elector would feel a previal astisfaction in discharging so patriotic a duty. But to be called on, in the last half of the Nineteenth Century, in a British colony, and in sight of the successful working of free institutions in the neighbouring States and Territor ex, to "select" instead of the successful working of the institutions in the neighbouring States to occupy—so der institutions in the neighbouring States to occupy—so the institutions in the neighbouring States to occupy—so the state of the selection of the

in doing so I deem it to be incumbent on me to define my position on the loading political issues of the day. With respect to Confe craigo, I entertain no Utopian ideas wharever; neither do I advocace it at any and a all bazards to the Colony. But I outertain the fixed belief that if the Colony could be admitted into the Dominion on such equitable and benedicit terms as would change the prevailing despondency into the prospect of a brighter inture, cause our people to take a greater pride in the greatness and consolidation of British power on this Continent warm them with a gloy of overview satisfaction at being a self-governing member of the British action, and at the same time to be admitted on such terms as would increase its prosperity by administing our population of such terms as would increase its prosperity by administing our control of the contravious of the prosperity of the such terms as would increase its prosperity by administing and above all, such as wengele. I consider that it would not desire the such control of the prosperity of the control, the control of the prosperity of the control of t

considerable to the settlement of the country. In all resources a need the settlement of the country. In all resources are settlement of the country. In all resources are settlement of the support of supernomerary efficials, and in paying salarize disproportionare to the services rendered, and to the population of the following retremelment to an extreme and without impairing the efficiency of the public service. From the footening a population of 10,000 whites—one official to every 100 of our white inhabitants. Yet the people are without power to reduce their numbers or curtain their salarise. Every session of the 1 cristal rive Council is like a thamps de Mars or Autumnal Assembly of the medieval Franks,—a meeting to divide the plundra and booty of the previous campaign among the freement of the following the salarise. Stevy session of the 1 cristal rive. Such as the salarise is the salarise in the salarise is the salarise of the salarise is the salarise in the salarise is the salarise of the salarise is the salarise in the salarise is the salarise is the salarise in the salarise is the salarise is

In this City, after a short illness, Harriet E. J., wife of Mr Thomas James, in the 19th year of her age. The funeral will take place from the residence of her parents, on Herald street, Inis Day at 2½ p. m.

Items from Puget Sound Papers.

We learn that Mr C S King, Indian Agent, has arrested the Indians who recently murdered the party of Indians belonging to Northern tribes, on the 21st Sept, near the lighthouse at Dungeness. The murder was committed for money. Mr King is having balls and chains prepared to hold them in security .- Republican.

The hall of the bark Ocean, lying on Dungeness Spit. was sold yesterday for \$260 currency. Mr O McCausland, of Pt Blakely was the purchaser. The sails, rigging, &c, of the Ocean, which were brought hither by the schooner Experiment, were purchased by the same gentleman for \$300 .- Message.

The steamer Active is telegraphed to leave Portland this morning for Victoria. She is reported to have twenty-six passengers booked, and a full cargo of freight .- Intelligencer.

THE HAPPET IN GREAT BRITAIN .- By recently received papers we get detailed particulars of the harvest in England. Owing to the long continued heat, it had commenced much earlier all over the British menced much earlier all over the British lates than usual. The wheat crops turned abundant yield on the heavy lands more than compensating for the deficiency on light gravelly soils. The spring corn crops are however, unsatisfactory, especially bailey, however, unsatisfactory, especially bailey, oats, peas and beans. The root crops are said to have suffered most, and may generally be considered failures. Potatoes are excellent in quality, entirely free from disease, but remarkably small; turnips, beets, hay, &c. will range at ruinous prices. Many of the finest English pastures will have to be resown with seed, so completely is the turl burnt out. The want of water has had a disastrous effect on animal and vegetable life, from which the country it is said cannot recover under a year's time.

FROM THE SOUND .- The steamer Eliza Anderson arrived from the Sound at 2 o'clock yesterday afternoon, having been detained at Port Townsend by the fog. She brought twenty-nine passeugers. Amongst her freight for the few last trips, we observe a supply of Timothy seed coming over; yesterday there were 67 sacks. Owing to the indisposition of Capt Finch, the Anderson, for the two last trips has been under the command of Mr Fred Finch, for the first time. On each occasion he has been like his father, well up to time, for which he is to be much com ended. Were he to lie over on occount of the fog the butchers would have no little difficulty in supplying their oustomers.

RECIPECTIV. - Negotiations respecting this important policy are the order of the day. 'It is given out.' says the Toronto Globe Sent 4th that Mr Seward has entered into negotiations with Mr Thornton, the English Minister, for a new treaty of Reciprocity with Canada, with the old treaty to form the basis of negotiations, which will soon be in a condition for transmission to the Imperial Government and Canadian authorities; and that it is expected the treaty will be effected in time for ratification by the Senate at the December session of Congress.' The Ottawa correspondent of the Globe adds, that Mr Rose 18 going to Washington to further these negotiations.

THE CEMETERY - We have been desired to call the attention of those interested, to the meeting, which will be held to-morrow afternoon in Smith's Hall at 4 o'clock, in connection with the cemetery. The improvements contemplated are quite necessary; thorough drainage, laying out of walks, and planting trees; in fact a complete revonation of the last resting place of the dear departed. None we presume, will deny that this is all necessary, or that it ought to have been done long ago. The different religious denominations will each send a Committee to the meeting. We trust the object contemplated will be accomplished.

How They Do Things in the FAR West. P-H-O-U-P! P-H-O-U-P!!-There is the whistle of the construction trains within ten miles of Green River. Last night we heard the shrill, old familier shreak, reverberate, echo and re-echo from cliff to cliff, as we lay on our virtuous couch, wrapped in our dirty sheets. Inside of a week. specimens of men's tights and women's 'Grecian Bends' from Plymouth Rock and the 'Five Points' of New York, will be bustling about among the thousands of tons of freight that will be unloaded on our warehouse platforms. Welcome Iron Horse. Welcome the master spirits that make the world move .- Frontier Index, Green River City, Wyoming Terri-

COUNTY COURT .- This Court sat vesterday, His Honor Mr Justice Pemberton presiding. Out of a tolerably long list of cases there were only two brought before the Court viz, Wear vs Drew-Judgment for plaintiff \$5 75. Rowland vs Simpson-Postponed rone week.

THE President of the United States has issued a proclamation appointing November 26th, Thanksgiving Day.

POLITICAL MEETING. - An impromptu | Confederation and Auti-Confederation meeting of the friends of the Hon A DeCosnos was called last night at Smith's Hall, for the purpose of making arrangements for the ensuing selection. Notwithstanding the shortness of the notice, the meeting was numerously attended, and most carnest in the adoption of what were deemed necessary measures. The meeting gave an enthusiastic and unanimous invitation to Dr Powell to allow himself to be put in nomination conjointly with Mr DeCosmos, which that gentleman, as will be seen by his card this morning, accepted without hesitation.

THE STAMESE TWINS .- The Toronto G'obe of the 21st August says, the twins were then on exhibition in New York, where they would undergo a medical examination, in reference to their separation before leaving for Paris for the final operation. The same paper also informs us that they lost all, or nearly all their property last year; is the cause of the loss not given.

THE STEAMERS - Our Island steamers all got away yesterday morning. The Enterprise with 70 tons of freight left for New Westminster; the Sir James Douglas and the Grappler for Nanaaimo and the Isabel with the Mauna Loa in tow, for Burrard Inlet.

Another Scientific Revolution.

Subjoined will be found an extract from a Cape paper kindly loaned us, giving an ineresting account of a revolution recently effected in the rigging and working of seagoing vessels. If the particulars given of the brigantine Formica, only approximate the truth, the long desired economy in maritime matters is at last accomplished; for the vessel in question, the build, rigging, steering. speed, capacity, and number of crew is certainly a modern wonder. IMPROVEMENT IN SHIP-BIGGING.—The St Helena Guardian of May 23rd says: "On Wednesday last arrived in the port of James

Town, the Norwegian three-musted schooner or brigantine Fermica, Captain Thorsten, oo her way to Singapore to Gibralter, for orders. We notice this arrival because she are indebted to the kindness of our falloware indebted to the kindness of our Fillow-townsman, W Carrol, Esq. Norwegian Con-sul at this port. As some details of her structure may be interesting to those who wish to be informed on these matters, we will endeaver to describe them as near as possible with the means at our command; but this description must necessarily fall short of what an inspection of the vessel would convey to the minds of those who had an opportunity of seeing the vessel before she had taken in her cargo. Experience has shown that the new principles of working vessels by means of mechanical appliances of recent invention have engaged the attention of nautical men, with the view of lessening the labor of the mariner and adding to the efficiency of the vessels. The Formica is a vessel built and rigged on these p inciples. Her topmasts are stepped quite differently to any other vessel that we know of, and can be lowered abaft the lowermast without interfering with the yards; and in addition to this, are strength ned at the very point at which masts on the old prin-ciple are the weakest. Among other pecu-liarities in the construction of the Formica is that every plank is bolted edgeways, and between the ceiling and the timbers there is a complete basket-work of iron throughout the whole lower hold, which is encompassed only by crost beams for and ait. She can carry nearly 500 tons of cargo at only twelve feet draught of water ; her greatest speed is fifteen knots; and during one voyage she averaged ten knots per hour for eighteen days successively, With the exception of her fore and main-top-gallant-sails, all her sails are and main-top-gallant-sails, all her sails are reeled and furled on deck; and the gallant sail, when clewed up, are from an improved method, so song that they may be said to be well stowed. From any of the crew to go aloft in order to shorten sail. On her fore and main yards runs what is technically termed a raveller much resembling the rails upon which an ordinary railway earriage runs. When the foresail or the mainsail is required to be taken in, the outhaulers leading to each yard arm are let go, and the sail is trailed up in a moment into the centre of the yard, instead of the ordinary method of clewing up. A similar line of rail runs abafe and mast, up and down which the gaff travels, thus dispensing with mast-hoops. The fore and alt trystalls are recled by being folled round the boom, which is on examinate private ple; so that one man can reef these sails as quickly as six times that number could furl the old system. Hhe has a spar deck fore and aft, and her main deck, which is about one hundred feet in length and six teet high, is well adapted for carrying either cargo or paringers. Her chain plates are invisible, and she has no bulwarks, but merely a top gallant rail of ab uteighteen nches high. Her rudder is so adapted that she can be steered from the 'tween decks, or even from the cabin, if required, which evi-dently is of great advantage, and a boon to the helmsman in case of the vessel encountering a storm. The vessel requires little or no ballast even when going to sea. She is built of beech, and is classed A I at Lloyd's for seven years. Her crew numbers nine men all told, and the watch—four men—can put her under close reefed canvas in a few minutes. Her construction is well worthy the attention of shipbuilders, as she will, no oubt, prove to be a lucrative vessel, both to

THE MOMENTOUS QUESTION .- Bank Mana gers, Note Discounters, Wholesale Merchants Real Estate Dealers and Money Lenders. invariably now enquire before transacting bu-iness with customers, 'Are you insured. The Pacenix Fire Assurance Company, of London, Established in 1782, and which has already paid over NINE MILLION POUNDS sterling for losses, continue to insure in British Columbia at as low rates as any other responsible office. Victoria Agency at Adams & Beaven's Store, Government street

HOLLOWAY'S PILLS.—Nervousness and want of Energy.—When first the nerves feel unstrung, and listiessness supplants energy, it is the right time to take some alterative as Holloway's Pills to prevent disorder running into disease. These excellent Pills correct all irregularities and weaknesses. They act so kindly, yet so energetically on the functions of digestion and assimilation, that the whole body is revived, the blood is rendered richer and purer, the muscles become firmer and stronger, and the nervous and absorbent systems are invigorated. These Pills are suitable for all classes and ages. They have a most marvellous effect on persons who are out of condition; they soon rectify whatever is in fault, restore strength to the body and confidence to the mind,

EDITOR COLONIST,-One point clearly made out by the Confederates and which their opponents do not attempt to deny, is that some change in the Government of this

Colony is necessary. The nature and extent

of the changes are the ground of debate. Advocates of Confederation think that nothing short of joining the Dominion will serve us, and try to show how the Canadians would make our roads, pay our debts, and treat us in other respects as a prodigal son; but not making it very clear that we should not have to pay full market price for the fatted calf. It certainly occurs to me as probable that whenever it becomes known that British Columbia is getting more than a fair share of the porridge, the rest of the tally impracticable and equivalent to dis Dominion will see to it that she puts in a proportionate quantum of meal. Be this as t may, let the terms of admission be ever so tempting, I would ask—is it wise to rush headlong whence there is no retreat? If all were going smoothly, if everything prospered in the New Pominion, if no word of regret were heard from any of the colonies already incorporated, there would be excuse for our haste to share their happiness. Or if the choice were only between Confederation and a continuance of our present state, then also no voice would oppose the promptest action. But what are the facts? Nova Scotia 18 crying more loudly for repeal than we for Union, and the only answer to her cry is Too LATE! Yet if Confederation is good for us, one would suppose that with still stronger reason it should be good for Nova Scotians, and if bad for them, it must be worse for us. Neither is Confederation our only means of escape from the slough in which we now are. Half the energy em-ployed to promote Confederation, if properly directed, would procure for us a form of Government suited to our position and our wants—the appointment of a man of at least ordinary capacity in place of our present incapable Governor. A lighter civil list and economy in all departments would naturally follow, and from these, strict punctuality in payment of interest and debentures; and when it is seen that our obligations are promptly met, we shall only have to ask to get all the money we need at eix per cent. This alone would give an impetus to public works of utility and expand the germs of prosperity already visible in our mineral, manufacturing and agricultural interests And why should it be necessary to Confederate in order to make the Wagon Road should not this rather be a preliminary ster to Confederation? If, as asserted, it would conduce to the welfare of both sides of the mountains, what easier than to arrange for its construction? the cost to be borne by

required, the promise of a road is merely a Then with an extra year or two of experience of the working of Confederation we might treat calmly and evenbanded for admission if so inclined. We are told that do what we may, Confederation is our destiny; but that now we may name terms, hereafter not. Do not believe it; until we wish to join and Canada wishes to have us we shall be free to jog on in single blessedness. I am not opposed to Confederation, but only to precipitancy. I wish that in our anxiety to escape present ills which are remediable, we may not run into dangers which, though we may not see them, the cries of those before should lead us to suspect, and from which there is no retreat.

the parties benefitted in proportion. If not

Our Puget Sound Correspondence.

PORT TOWNSEND, W. T. Oct 19, 1868.

EDITOR COLONIST :- No additional shipping news since last communication, except the arrival of the steamer Geo. S. Wright on Monday night of last week. Tuesday morning at daylight she passed up the Sound, reaching Olympia on Wednesday morning, being detained some hours on Tuesday night owning to the fog at Mud Bay. On her return she reached here on Saturday afternoon at two o'clock where she is still detained on account of the dense fog, which obscures exerciting at a distance of an eighth - f hours in expectation of the fog lifting-no show of her getting off to-night-purposes going to Oreas Island for lime, thence to Victoria. The schooner Alaska is becalmed and befogged off Dungeness Light. French ship Jeannie Altee and the bark Aid are still in the harbor detained from the same cause.

The new tug boat at Utsalady styled the Favorite was launched on Thursday. Dimensions-keel, 129 feet; entire length 140; breadth of beam 28; depth of hold 9: diameter of wheel 19.

WELL WORTH READING - Who is there that does not desire to be always exempted from indigestion—to have a good appetite, a painless stomach a clear had, a regular pulse, a healthy complexion? If this meets the eye of any who are not thus blessed. le the eye of any who are not thus blessed, let them try hosterter's stomach hitters. We guarantee that this delightful tonic will restore any stomach, however weak, to a bealthy condition; that it will bring back the truant appetite, and give permanent vigor to the whole system. The feeble and cmao'ated soffering from dyspepsia or indigestion in any form, are advised, for the sake of their own bodily and menial comfort, to try it. Ladies of the most delicate constitution testify to its harmless and its restorative properties. Physicians everywhere, disgusted with the iterated liquors of commerce, describe it as the

confirmed dyspensia.

SAFEST AND MOST RELIABLE of all stomachies. Its effects are instantaneous. It does not require weeks of dosing before its virtues are realized. Bn Glectric Telegraph.

SPECIAL TO THE DAILY BRITISH COLONIST

LAST NIGHT'S DESPATCHES.

Eastern States.

WASHINGTON, Oct. 17 -- The following answer to a despatch from this city asking whether a proposition for a change in the Democratic Presidential candidate was prompted by the Democracy in New York.

"To John D. Hoover, Esq:

No authority or possibility to change the front, all the friends consider it todisbanding our forces; we in New York are not panic stricken.

> August Belmont. (Signed,)

Augustus Schell." CHICAGO, Oct. 17-The Democratic papers all over the country comment on the proposition to change the ticket. The most prominent journals generally reject the plan. The question of how the withdrawal of Seymour would affect the bets pending on his election; seems to form an important element in the discussion.

Last election returns show a majority in Pennsylvania, Republican of 10,000. Preparations are being made to contest the election of all the Democratic city candidates in Philadelphia. The majority for Mayor is 1838.

In Indiana Baker's majority is about 1000. Official returns may increase it to 1500. Voorhies is elected, but his seat will be contested. In Ohio, majority will reach over 18.000.

Washington, Oct. 16-There are but three or four members of either branch of Congress who were present to day, and the respective Speakers declared both Houses adjourned to November 10.

CHICAGO, Oct, 17-A cable despatch says it is believed that the news telegraphed from London, resulted in a maneuvre of Lord Stanley's secure to the success of the Tory party in the coming election.

Europe.

Paris, Oct. 17-The Epoque asserts that General Prim is intriguing to gain the prime power, but Espartero, who is daily expected at Madrid disapproves of the influence of General Prim in the Government and will do his utmost thwart his designs. Gauloise predicts that the European powers will soon recognize the Provisional Junta as a de facto Government of Spain.

Madrid, Oct. 16-Admiral Merdez Nunez has been appointed by the Provis ional Government, Captain General of the fleet.

LONDON, Oct 17-The Government of Spain has appointed Kios Kazas Minister to England.

It is understood the basis agreed on by Johnson and Lord Stanley for settlement of the Alabama question, is that a mixed commission be formed which shall hold sessions in London and pass all claims preferred by English and American citizens.

LONDON, Oct, 17-The Times to-day has an article on the Chinese mission and thinks that the fact of Burlingame not being a native of China will be no obstacle to his success at the courts to which he is accredited. They will forget it if he will abstain from interference with political intrigues in which China can have no healthy interest; if he acts as though there could be no separate national interests in Europe and America as indeed there are not, so far as their relations with China are concerned and accept it as the primary function that a mile, She has had steam on for several his mission is to discover and explain what are the best lines of trade both for China and the Western countries; he will have accomplished much for China, and something for the rest of the world. No countries can have a greater interest in this part of this mission than Great Britain, none would be more willing to cortribute to it.

PARIS, Oct 17-Gauler's (?) newspaper has a report that an unsuccessful attempt to shoot General Prim was made at Madrid. The assassin was arrested and afterwards set at liberty by General Prim himself.

MADRID, Oct. 17-The coinage system of Spain is to be radically changed to conform to France. Rose de Oluna Count of Alumna has been appointed Captain General of Cuba.

Or egon.

PORTLAND, Oct 20-The steamer Active sailed this morning for Victoria.

DELAYED DISPATCHES.

Eastern States.

ATLANTA. Oct 4 - The Legislature to-day examined the eligibility of Beard, Bleeches and Davis. After a full investigation they tound that Beard had in his vein more than one-eighth negro blood. A report was then adopted that Beard was ineligible. New York, Oct 4-The Catholic Synod

has promulgated a decree at the Plenary Council at Baltimore, urging the immediate establishment of schools for colored children in the Southern States, and also the establishment for orphane, as there is reason to a large increase of orphanec

LAWRENCE, Kansas, Oct 4—A remarkable case of petrifaction was discovered recently at Sheridan bend on the Kansas Pacific

Railroad. It appears to be the remains of an immense crocodile, and measures one hundred and twenty-six feet in length. The upper jaw measures seven feet and weighs seventy-five pouns.

CHEYENNE, Oct 4-Information from Fort Laramie says several bundred Sioux, under Man-afraid-of-his.horses,' and other chiefs are now there ready to go on their reservation as soon as transportation is lurnished.

Chicago, Oct 4—Senator Cole arrived at Council Bluffs yesterday, making the trip from Sacramento in nine days.

ST Louis, Oct 4 - Pierre Chauteau, one of the founders of St Louis, died here last night. Buffalo, Oct 5-The twenteth annual convention of the Free Will Baptists of North America met this afternoon. About 400 delegates were present from all parts of

the country. PHILADELPHIA, Oct 5—A public reception will be given to Gen McClellan by his old comrades in arms in this city. The recedition committee is composed of eighteen generals. It is announced that no political devices or inscriptions will be permitted in the line.

CHICAGO, Oct 5-A Republican's Washing ton special says it is understood that the status of the Spanish Legation here has been canvassed by the President and Scoretary Seward. Seward has been careful not to commit himself against the insurrectionar leaders. It seems that the Queen has mad preparations for an occasion like the pre by making safe investments in America. is said that some time ago heragents bough up the whole Germantown water stock.

PHILADELPHIA, Oct 5-Mr Seward takes an active interest in Spanish affairs. Ministe Hale keeps him fully posted. A *Tribune'* Washington special says: Mr Seward wil take advantage of the present Spanish diffi-culty to urge on Congress the purchase of Cuba. It is even said he will take the responsibility to make the purchase before the meeting of Congress, as in the Alaska

NEW YORK Oct 6-Wm Parker, Superintendent of the Panama railroad, was as-sassinated Sept 27th, by J Baldwin, Civil Engineer, in in the employ of the Railroad The latter was suffering from company. The latter was suffering from delirium tremens and shot himself. He will probably die.
Political affairs in Panama are still un-

settled. Reports of a coming revolution were current and several arrests had been made. The President had issued a proclamation stating that measures had been taken to keep the peace.

The deposed President, Falcon, of Venez-

uela, had reached Aspinwall engage to

Europe,
News from the South American coast gives further accounts of the learful ravages by inundations and earthquakes. At Calderaza it drove the inhabitants to the hills wrecked sixteen or eighteen lighters and damaged several larger crafts. Twenty lighters were wrecked at Carrisal bay, besides the American brig Delafina with 20,000 kilogrammes of copper. Many vessels were damaged severely. The residents of Valdamaged severely. The residents of Val-paraiso have raised \$40,000 for the sufferers by the cartiquake, and the Chilean Congress has appropriated \$50,000 for the same purpose. The Government also sent large supplies of provisions, clothing and medicines

Political affairs in Chile are unsettled. Clark, United States Consul at Valparaiso was informally received by the President of Chilie as acting Minister during Kilpatrick's absence.

The Triennial Convention of the Protes-

tant Episcopal Church meets at Trinity Church to-morrow. Forty-two Bishops and nearly one hundred and fifty delegates are expected to be present.

The fourth National Conference of the

Unitarian and other Christian church com-mences to-day at Irving Hall. It will con-tinue during the week. About eight huntinge during the week. About eight dred delegates will probably be present.

California.

SAN FRANCISCO, Sept 29-The Democratic County Convention last night made the following nominations: Fire Commissioner. lowing nominations: Fire Commissioner, Samuel Raney, Jr.; Public Administrator, Jacob Benjamin; Auditor, Thos H Holi; Tax Collector, A Austin, City and County Attorney, Jos. N Nonges.

Louis Maskens and wife sue to recover \$5000 damages from F Votor, druggist, whom they aliege compounded a prescription mpreporty.

SACRAMENTO, Sept 29—The ninth annual session of the Grand Lodge of Califfernia of the IOGT. convened in this city to-day, at the Assembly Chamber. Delegates from various parts of the State and Nevada were various parts of the State and Nevada were present. R Merrill of Marysville, G W C T, presiding.

SAN FRANCISCO, Sept 30.— The Union County Convention met last evening and nominated Patrick Crowley for Chief of Po He was nominated by acclamation without competition, and will receive the support of men of all parties.

The Carnival ball last night was a splendid success. About 4000 people were present, over 500 being in masquerade costume. The first prize a gold medal, was awarded to M Levi, the Wild Irishman, for best acted character. The second, a set of gold eleeve onancter. The second, a set of gold stocker buttons, to H Hinomum, who personated the 'Irish woman carrying her husband on her shoulders to the ball.' The Ladies' prize, a set of Etruscian jewelry, was given to Mrs H K-iller, who personated the 'Knickerbocker lady.

MOKELUMNE HILL, Sept 30 - This afternoon between 3 and 4 o'clock, as Mr Sa d. Sunerintendent of the Petticoat Mine. railroad, accompanied by Messrs Meck and Keese, was on the road to this place in a burgy from the mine, four masked men stepped out from a small pine thicket and without any intimation fired, the shot in stantly killing Mr Said. Meek jumped out and ren, but was caught and robbed of some sixty dollars. When the gun was fired the horses started to run and Keese caught the lines, whipped up the team and came on to this place with the body of Mr Said. The treasure was not taken. Said was shot in the mouth, the charge coming out behind the ear The whole country is in pursuit of the mur-

Europe.

FLORENCE, Oct 2—Signor Scrose, present pointed Diplomatic Representative from Italy to the Mexican Republic.

London, Oct 4—It is rumoused that a con-

spiracy to dethrone Abdul Assiz, the reigning Sultan, has been discovered at Constantinople. A number of arrests were made, but no further particulars of the affair have been received.

NEVER wear a Cough, or irritation on the ungs, when you can buy AYER's CHERRY PECTORAL, the world's great remedy that cures it.

Chemists to H.I.P. Prince Napoleon

PARIS.

THESE different medicines represent the most recen nedical disoveries, founded on the principles of Chem

stry and Therapeutics. They must not be confounded

with secret or quack medicines, as their names suffic

ently indicate their composition; a circumstance which

has caused them to be appreciated and prescribed by the

Faculty in the whole world. They widely differ from

those numerous medicines advertised in the public

papers as able to cure every possible disease, as they are

applicable only to but a very few complaints. The most

stringent laws exist in France with regard to the sale of

medical preparations, and only those which have under

gone an examination by the Academy of Medicine

and have been proved efficacious, either in the hospitals

by the Government. This fact must be a guarantee for

the excellence of Messrs. Grimnult et Co.'s Medi-

Full pirections for the guidance of patients in ever disease affixed to each Box **EXTRAORDINARY** CURE OF A COUGH.

The following letter has been received from WILLIAM BOARDS, Esq., an extensive agriculturit and land agent, residing at Edmonton, Middlesex:—

"Nightingale Hall, Edmonton.

"Dear Sir,—I have recently swifered much from a most violent cough, proceedin, from a tickling in my chest, which no remedy, out of many I resorted to, could allay. My head was constantly aching, and my whole frame entirely shaken. Having seen the good effects of your Balsam of Aniseed in several members of my family, I purchased a small bottle, and, when going to bed at night took a teaspoonful in two tablespoonful of water, just warm. The effect was immediate; it arrested the tickling in my chest, I slept well, and arose perfectly restored in the morning, with the exception of debility, arising from fatigue by incessant coughing for some days previous. My cough entirely left me, and has never returned Having since heard of a lady in the neighborhood who for a long time had laboured under a most distressing cough, and who had resorted to every remedy within her knowledge, I sent the remainder of the bottle to her; and that long-standing, obstinate, and (as she thought) incurable cough, was perfectly cured. You are at perfect liberty to make what use you may please of this communication, as the contents are strictly true I shall take every opportunity of recommending your inestimable medicine, feeling as I do fully assured of its efficacy.

"I am, dear Sir, yours very truly." "Nightingale Hall, Edmonton.

your inestimation assured of its efficacy.
"I am, dear Sir, yours very truly,
"WM. BOARDS.

"To Mr, Thos. Powell." POWELL'S BALSAM OF ANISEED.

For Coughs, Colds, Influenza, Shortness of Breath. Asthma, Bronchitis, and for all affec-tions of 'ne Lungs, this old established remedy will be found invaluable. TEN FIRST PRIZES. ONE SECOND PRIZE, The large sales and increased demand for this excellent and elegant preparation, which has followed its introduction into Australia, New Zealand and nearly ill the British Colonies, has induced the Proprietor to still further extend the beneficial results of its user and he here to appropriate the property of the pro he is now introducing its sale into Victoria, B. C., and has appointed Messrs Millard and Beedy, Wharf Street, Victoria, Wholesale Agents, through whom Chemists and Sterekeepers can
